

Zora AI „CFO Insights“

Scope for pilot

**Business Unit Controller**

Persona

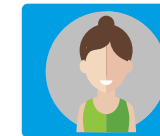

“As a Business Unit Controller, I want to monitor and analyze my business unit's financial performance, so that I can identify deviations early and provide accurate insights for decision-making.”

Leading questions

- What is driving the financial performance in my business unit, and what evidence supports the explanation?
- How does this month's performance compare to plan, prior periods and outlook?
- Which component contributed most to this month's material movement (e.g. volumes, prices)?

Key metrics

- Margin	- Volume
- Sales	- Price

**Business Unit Head / Key Account Manager**

Persona

“I want to understand the performance, profitability, and development of my key accounts, so that I can identify growth opportunities, address risks proactively.”

Leading questions

- Which key account contributed most to the variance?
- What factors have a positive or negative impact on margin variances?
- Which customers or accounts require immediate attention based on unusual sales, order, price, or margin developments?
- Which customer-specific actions should I take to protect or improve sales, pricing, or margin performance?

Key metrics

- Margin	- Price
- Sales	- Weighted average term
- Order

Sample questions for Ask Zora

Exemplary questions asked by the users are needed to test the logic by comparing it with the expected values

Category	Sample question	Expected answer
Sales	What was total net sales for Q2 2025?	
Sales	Show me revenue by region for full year 2025, sorted highest to lowest.	
Sales	Show me Delta from Month Jan 2025 to March 2026 on Marketing Level 3	
Marginal Income	What are the top 3 of less performing product in PH3 in reference to marginal income 1?	
Marginal Income	How did our marginal income change from Q1 2026 to Q2 2026?	
Order	How did order volume grow from HY2025 to HY2026?	
Order	How is the order volume pipeline for customer xy for the next 3 months?	Customers: Sold to, ship to, marketing hierarchy
Order	What is the average order volume size in FY2025, by BE?	
WAT	Show me the WAT of ship to customer xy and show the deviation to target	
WAT	What percentage of our Account Receivables is overdue as of end of 2025?	

Functionality of Zora AI | Pilot vs. Production

Topic	Pilot	Production
Data refresh (dynamic vs. static)	No connection to live data, incremental data loads simulating dynamically updated insights	Live data connectivity enabling real-time dynamic insights
Customization of widgets	Selection based on pre-defined widgets or charts	Creation of customized widgets possible
Trained model language	English model language only	Multi language support in clarification
Collaboration within in one workspace (e.g. jointly commenting analyses)	Individual workspace usage without shared collaboration	Collaborative workspace features to be addressed to Zora AI Product Team
Scope	Limited set of KPIs and reports	Comprehensive reporting suite with full selection of KPIs and reports
User group	Limited amount of users	A broad deployment with many users
